It's hard to say much new about the virtues of the BTCof SL. The venue is superb for a small specialty, the club members support each other as well as the visitors, the onsite catering is excellent, and of course, a hotel that includes happy hour and hors d'oeuvres for post-show socializing. There was a large entry especially in white bitches, and it made it an enjoyable experience to pick the winners. It appeared to be littermates day in both coloreds and whites!
