BTC New England Ladies Dog Club

Ladies kennel club

Judge: Franne Berez

We awoke to crashing thunder, lightening, and tornado warnings so I felt fortunate by ring time that only a suffocating humidity remained. The club went all out this year to celebrate their first stand alone specialty the night before judged by Dr Bob Myall, I wish that I had been able to attend because the participants were raving about the food and fun when I arrived at the club hotel that evening, Ladies Kennel Club is in a beautiful setting although the grass was so long that it made movement very difficult to assess, I had made the suggestion of a club push lawnmower several years ago when I had to dismiss my clear BOV from the ring at the same show grounds when he refused to move through the thicket,

The overall quality was very high at this show with 43 total entries. I was looking for tpy fat headed compact animals with round bone exuding the upbeat happy temperament of our breed, There were lovely animals that I did not choose, mostly for the lack of head strength in the muzzle, bone strength down to the feet, length of back ,and/or lack of outgoing attitude, I chose to compromise on the mouths which is unusual for me to find the overall package, I think my winners were quite similar and represent my personal quest to maintain what I consider proper breed type,

White Bull Terriers

Of note, there were only 2 dogs, both of quality .

Winners dog, best of winners;

Broduer's Philgin's Goodfella (Ch Sarajeni Rockin at Philgin x Philgin Wendigo Auto Focus)- This one views best from the front, he has amazing pack and fill under the eye with cheek bones that pop out, set off by the tiniest of wicked eyes and compact ears right on top . My hands barely reach around his muzzle, Canines correct with reverse scissor bite , He has the straightest of front legs with round bone all the way to his toes, His shoulder is a shade upright which leads to a softening in the back on the side movement . He is masculine throughout exhibiting a happy glad to be here air today, This one is all boy,

Reserve white dog

Wilson and Dusaults Legacy Hughes your daddy of Winsor (Ch Victoria's Grimaldi Of Windfall x Windsor Hope Springs Eternal ) Medium sized boy with shapely silhouette , low on the leg and a tad high in the rear, His head is well turned from the side but more triangular is shape when viewed from the front and , his expression is good but not as wicked as my winner, His mouth is correct, He has nice bone but not yet the power of the winner, He will be an interesting young one to watch as he matures,

White Winners Bitch. , BOS

Killian and Krukencamps Madcap When in Rome (Ch Macap Vedi Vlni Vici x TNG N buoy's concrete blonde) Type and power describe this medium sized white girl, she is shapely and stands like a statue with lovely turn of head and more than enough fill from the front She uses her ears well Her mouth has correct canines and a few incisors just off, , she has a lovely full fore chest and stands foursquare with good bone, her movement is a little loose in front but possible influenced by the ruggedness of the terrain, quite the captivating picture.

McConnel and Bavol's Old England's White Imperial Empress (Tulsadoom albi albon x Ch Old England's Lady In Red)

Promising 9 month youngster with a lovely head and perfect bite, she is a little chubby today giving her a few too many wrinkles over the neck and shoulders . She presents a nice package with short back and full rear, she moves loosely towards in the front,

BOV

Bluhm and Whitehair's Ch Mohawk Great Bear (Ch Sandstone's Rolling Rock x Napier Works Like A Charm)- this heavy weight classy white carrying brindle shouts stud dog for me, His head is long and turned and full with good expression and he has beautiful bone, Loads of quality with power. From the side he has smooth unwrinkled shoulder and he is a tad long in the loin. A cut above the rest today,

COLORED DOGS

WINNERS DOG, BEST OPPOSITE SEX

Woodmans' Skyline the Aftermath of Dazlin (Northern Cross at Dazlin x Skylines Black Magic). Occasionally a dog enters the ring that takes my breath away and today was the day, This upstanding black brindle boy has a egg shaped headpiece with a wicked eye and perky ears, Stylish yet powerful with good leg under him , squarely built with a good top line . He stands straight from front with round bone to the feet and nice bend of stifle from the side, He moves with confidence and drive. Only jumbled tooth placement kept him from the top honors today,

Reserve Winners Dog

Scheibleys and Bavols' Old Forge Falcon – Stylish upstanding red puppy with smoothly arced profile ending in blunt finish, , He has proper eye placement from the front and long head with good bite, His neck is thick and strong and top line good with proper tail set, he moves loosely towards me in this rough ring : elbows should probably tighten with age I will look forward to see this young one when he grows up,

COLORED WINNERS BITCH, BEST OF WINNERS

Snyder and Fike's Caben n Paradox Sweet Muse-IC(Ch Terjos The Vital Spark and Ch Paradox Sweet Muse-Ic to my Ears)

Rich red brindle and white with a smashing headpiece, This petite yet powerful lady is middle of the road type. Statuesque with a lovely silhouette she commanded my attention from first assessment, Ears perky on top of the head which is fully filled in both directions although a tad short in the foreface, Canines are correct and incisors just off. She has a wonderful length of neck and dead straight forehead, shoulder a little upright which spoils the top line just a bit on the go around,  
Plenty of bone for her size. Should have a bright future

Reserve colored bitch

Evans and Hutter's Mystic Mistress of Epiphany (Apprentice Man in Action x Blueprint glass onion,) –Shiny Dark Brindle with another dynamite headpiece, This one really caught my eye for her true type. Lovely expression and good ears add to an almost overly packed head. Foreface is a bit short and I was sad to see her mouth is off with misplaced canines, She has a wide breast and straight legs from the front and lots of power all the way through with good topline . she was a tad chubby today and that spoiled her underline for me and she did not want to cooperate fully in this ghastly heat, A top notch bitch full of virtue.

#### BEST OF VARIETY COLORED

HENNESSEYS'S BUOY'S NORTHERN EXPOSURE (Killidaugh Northern Cross at Dazlin and Wendigo's Sarah in Sable) This Dark Brindle girl just keeps getting better with maturity, She has shape and substance with a long fully turned headpiece and feminine amount of fill from the front, She has good expression and perfect teeth,  
Her outline is smooth and unbroken from the side perhaps with just a tad more length of back than necessary, Her movement was good in both directions .It was with pleasure I rewarded her BOV
