COLORED

Reserve Winners Dog

Frascone's **STARSTRUCK FIREBREAK** (Starstruck Oberon ex Starstruck Colhartd) Compact red smut with few white markings. In profile, he presents a well proportioned outline with good strength of neck, pleasing topline and tail set. Slight lack of angulation in front affects his movement there. He shows a strong muscular body, but not quite the proportionate width of the WD. His head is adequate, with a good bite, but lacks the drama in width and profile of today's top winners.

Winners Dog and Best of Winners

Eubanks & Wright's **GLENTOM SIMON SAYS** (Ch. Glentom's Bruce Almighty ex Ch. Glentom's the Sneak Preview) Nicely marked brindle and white. with plenty of size and substance. I liked the smoothly contoured muscular outline of this dog, although I would like more shortness in loin. In body, he shows a prominent forechest, good layback of shoulder, nicely arched and strong neck, with a good tail set and strong, rounded, muscular quarters. He has a masculine head of good length, a lovely profile with good width and depth to the muzzle. Incisors slightly under, but correct canines. This dog has excellent bone and stands nicely up on firm pasterns. Moves out well at both ends.

Reserve Winners Bitch

Ibbitson & Cates' **BAKER STREET BLACK BUTTERFLY** (Ch. Baker Street Back To Bonanza ex Baker Street Bloom O'The Rose) Compact, black brindle showing good substance for her size. She has lovely contours starting with her head through her strong neck into a correct topline and tail set. She also has nicely turned stifles. Her head is strong, wide and well packed, but I found it to be a little short in length. One instanding canine. A little shortness in front legs disturbed what was otherwise a nicely proportioned substantial bitch of moderate size.

Winners Bitch

Nicols, Wright & Graulau's **GLENTOM CAMELOT MOON OVER MONACO** (Ch. Victoria's Grimaldi Windfall ex Ch. Glentom Camelot Creole Moon N'Stars) Outstanding conformation on this red and white bitch. From in front, she has a lovely, clean look to her, with straight limbs, good width and depth of chest, and good bone for her size. In profile, her shape also stands out with matching layback of shoulder and rear angulation, good forechest, lovely topline, and good tailset. It was a pleasure to watch her move flawlessly around the ring. While per head profile could be smoother, she has good length of head and shows a very nice expression with neat ears. Correct bite.

Best of Opposite

Wright & Cournoyer's **CH. GLENTOM MINT COPY** (Ch. Cool Conquistador At Crossgarley ex Ch. Glentom Mint Julep) Beautifully marked brindle and white with lovely smooth head in profile. That contour is carried over into her body which is both shapely and well muscled. She has good reach of neck and a good shoulder, and a well proportioned body with appropriate width and depth for her size. With her well turned stifle, she presents a nicely balanced picture. Her head is well filled but she is slightly under. Her lovely straight front, and well turned rear contribute to sound movement

Best of Variety and Terrier Group 4

Everett, Chorn, Frangos & Bankus' **CH. CRESCENT SILMARIL SHADOWFAX** (Ch. Boromir Quicksilver ex Ch. Silmaril Scarlet Temptress) A big boned, big bodied tri-color who combines size and substance with a balanced outline. He has good length and depth to this head, and strength and arch to his neck. His topline is pleasing, with an appropriate rise over the loin leading to a well set on tail. He moves powerfully in the rear, and true in the front although I would like to see more reach. Correct bite. A power packed dog with good overall construction.

WHITE

Reserve Winners Dog

Stafford & Poole's **ROCKY TOP'S LEADING MAN** (Ch. Alecto Kool Barracuda of Kilacabar ex Ch. Rocky Top's Honey N Rainbows) Large, masculine dog with very good shoulders and forechest. He is a little long in body, and a little flat over the loin. Tail is set on well and correctly carried. While he has a powerful head it lacks a little in strength of muzzle. Bite is correct. Moves well at both ends reflecting a sound construction.

Winners Dog and Best of Winners

Grecco & Bankus' **ARAGON RUFFIN LOCK N LOAD** (Ch. Baker St Back to Bonanza ex Ch. Horizon's Harmony of Aragon) A terrier style of dog with lovely expression, combining neatly set ears, dark well set eyes, and good width to his head (plus a correct bite). A compact, well muscled dog with good reach of neck, and nicely turned quarters. He is quite well balanced with a correct rise over the loin and good tail set. A jaunty mover, he was better in the rear than in front, where a shortness of upper arm restricted his movement slightly.

Reserve Winners Bitch

Stafford & Poole's **ROCKY TOP'S STAR APPEAL** (Ch. Elector Cool Barracuda of Kilacabar ex Ch. Rocky Top's Honey N Rainbows) Upstanding, Dalmatian style bitch with correct construction exemplified by her lovely movement at both ends. Proportionately, she was a little narrower in body than the WB. She has a clean front with a well set shoulder, and a good turn of stifle. She has a feminine head of good length but a suspicion of a brow interrupts the contour. Correct bite. Some pink on the nose. Given that she is a large, upstanding bitch, I would like to see more reach of neck.

Winners Bitch

Bankus & Grecco's **ARAGON RUFFIN TUMBLE** (Ch. Boromir Quicksilver ex Ch. Corsaire Con Brio) This is a sound, compact, bitch, with good substance and bone for her size. She has much to recommend her in the construction department - lovely, clean front, well set shoulder, firm pasterns, lovely topline, correct tailset, and good bend of stifle. She has a strong, well muscled neck, which could be a tad more reachy. She has good length to her head, real depth

to her muzzle, and apart from two incisors, a correct bite. As you would expect, she moves well both front and rear.

Best of Opposite

Azeur's **CH. BULLY MANOR'S CENTURION** (Ch. Miramax Maximillion ex Bullovers Bailey Cream) This is a big, upstanding dog with only a slightly long back to disturb his otherwise good proportions. He has great volume of body with width and depth to his chest, and good bone for his size. Stands nicely up on his pasterns. He is a tad loaded in shoulder which restricts his front movement. His head is smoothly curved in profile, but I would like to see more width to his muzzle for his size. He has a correct bite, and lovely dark eye. A correct tail set completes an eye catching picture in profile.

Best of Variety

Jones & Frascione's **CH. SINABAR MALIBU BREEZE AT LINRIC** (Ch. Emred Rum Runner ex Sinabar Adrenaline Infusion) This is a compact, nicely put together bitch with a slightly masculine well filled and turned head. She has a level bite with correct canines. She exhibits clean, correct movement at both ends and has well balanced proportions with good width for her size. Her movement reflects a sound body with particularly well turned stifles and correct rear construction including set on of tail. Her head has an unbroken sweep, with good depth, and a lovely expression. Her strong, well arched neck completes the picture of a dog with good proportions throughout.
