

CHATTANOOGA KENNEL CLUB SEPTEMBER 13,2024

Many thanks to the Bull Terrier club of the Southeast for the invitation to judge such a large quality entry of both bull terriers and mini bulls. The club went out of their way to provide exceptional hospitality to both their judges and entrants. I had not attended this show before and will try to attend again, both for the lovely venue and beautiful natural surroundings and for the fun Friday night event at the farm with great local cuisine

COLORED Winners Dog, BOW

SANDSTONE'S ROCKET'S RED GLARE TKN Dog

CH Bullymoon Stands For Liberty With Sandstone TKI and GCH CH Sandstone's Honky Tonk Angel FDC SCN SIN CGC TKA

Breeders/owners Tyrone and Melanie Whitehair

A flashy red and white powerful bullish male with extreme virtue. Packed and well-turned headpiece with ears held erect. Deeply set wicked eyes with good length of foreface and good bite, Nice round bone and deep forechest, a bit short in the upper arm so he can soften behind the shoulder but generally carries topline well due to great condition and musculature. He has the mere hint of bull in the front movement and could use a bit more bend of stifle behind, A very worthy winners dog with proper attitude who pushed hard for higher honors.

Feminine solid terrier type brindle with a beautiful full packed head viewed from the front with eyes well placed. From the side she has a lovely profile turned all the way to the end of her well finished nose with a perfect bite, I might like a tiny more underjaw but I think it could be an illusion due to the solid color. She has a graceful sweep to her neck which flows well into her topline, She has good substance and adequate bone for her style and moved well with an easy gait. She is very pretty and stands out in the crowd today.

Substantial white male with lots of bone His head is fully packed and turned with a wicked eye. I wish for better ear carriage . He is shapely with a strong arched neck and holds his topline well on the move and I appreciated his reach and drive , He could be just a tad shorter in the loin. He sports a brindle mismark on his hip

BULPAK REBEL BEAR BOP (Bulpak Polar Bear and City Dark Freedom)

Breeders: ERIK MAKLARI

Owners: April Renee Young/Miranda Carter

What I first noticed about this medium sized white dog with eye patch was the fullness of his head and wicked eye properly placed. He is short backed and compact with good bone and his front and rear angulation match, both being just a little upright , He has a jaunty gait and he is a pleasure to watch moving around the ring. Alas, his bite is off. There is a lot to like here in this young one and I will watch as he matures. He just does not have enough maturity today

WINNERS BITCH

She softens in the topline more than I would like to see on the move but needs better conditioning . She is showing well today moves true coming towards and going away
