

Central New Jersey Bull Terrier Club – Hatboro Dog Club

Friday 6th October 2023

I was honoured to receive an invitation to judge at this prestigious show weekend in Pennsylvania. Thank you to the Central New Jersey Bull Terrier Club for the appointment. I had the privilege of judging some quality dogs, and I wish to thank all the exhibitors for the entry. The weather was kind on the Friday, I thoroughly enjoyed the assignment and was made to feel very welcome over the entire weekend.

Keen expression with small, well-placed ears. Muscular neck of very good length and commendable shoulder connection. Short back, lovely angulation of both the front and rear quarters. Well-muscled neck, short back, tail carried a little high at times. Straight round bone, good shoulder, and adequate rear quarters. I would prefer his feet to be tighter, pasterns firmer. 12-mth-old Red and white male, long strong head with gentle profile. Good fill under the eye. Correct bite. Well placed ears, short back, and level topline, balanced fore and rear quarters, his rear angulation could be better. Down in pasterns, loose in front. Straight round bone. **ROCKY TOP'S CHERISH YOUR DREAMS, RN341582/02, 08/02/19*

1 year old, almost solid black brindle female, heavy yet well-proportioned bitch. Well filled head, profile not quite as clean as WB, tiny eye, correct bite. Strong round bone, good spring of rib and tight feet. Balanced fore and rear quarters, her lay of shoulder could be better angled, dips just slightly behind the wither, unfortunately affecting her topline on the move.

BANBURY BEDROCK BYZANTINE GOLD

5 yr old white male with black eye patch, up on leg. Well balanced body lines. Gentle profile ideally would like to see more width and fill. Correct bite. Good eye and neat triangular ears which unfortunately he used sparingly. Round bone, tight feet. Overall, would like to see more power and substance in a dog of this age. His ring performance was lacking a little today, watching his handlers every move.

2 yr old Smart, classy and feminine white female. Good size female, well proportioned, a real little Bull Terrier in a small package. She did not stop showing, on her toes always. Lovely length of neck, short back, balanced angulation of both the fore and rear quarters. Clean, round bone, tight feet, steps slightly wide coming, her elbows should be tighter. She moved well at all stages today and owned the ring. Both dog and handler were a well-oiled machine, handled to perfection and well-deserved of her BOV today.

**BULPIN KAHMINS GRAZY MAN CRAZY, RN382509/03*

16 mth old black brindle & white, strong, robust male. Long, strong profile to the tip of the nose, very good fill, and strength of underjaw. Mouth fault. Well-muscled neck. Very good angulation of the fore and rear. Level topline, feet could be tighter. Unfortunately, he couldn't get his sequence of steps together and refused to use his ears today, hampering his expression. With more practice, this is a very nice dog.
